Request for Map Symbols

1. Request ARB be provided the list and identification of map symbols used with the UN Assets map maintained at the Austrian Desk. This map and its various colored symbols identifying Austrian UN assets was determined and developed originally by   in January or February 1956.

2. It is ARB's intention to prepare, and keep up-to-date, two maps (Freytag-Berndt Kondorkarte, 1:400,000) which will show all Austrian UN personnel and supplies. One map will remain at ARB to serve as a comprehensive, immediate reference and guide and the second map will be sent to VOB for their reference. It is planned that the VOB map will be brought up-to-date, if need be, during ARB personnel's periodic visits there. We request Headquarters inform us of the map symbols they are currently using so we may use the same. Although it is not essential to our map-annotating, we believe it is desirable to have conformity in this matter between Headquarters and the Field.
